

# GARY SAITOWITZ GRANT FOR COLLEGE STUDENTS

## Overview:

Gary Saitowitz Grant program is an innovative idea of a successful businessperson Gary Saitowitz, who also has deep knowledge of finance. He comes with a very noble cause to help students having financial stress, especially those not hailing from rich families in the US.

**Gary Saitowitz** is tremendously conscious that higher education costs in the country are very expensive compared to the other nations around the globe. The college or university tuition fees are extremely high if a student wants to opt for an advanced course or degree from a reputed educational institution in America. At the same time, Gary Saitowitz understands that advanced college education in the US is the core of developing and creating a winning career in the days to come.

With this realization in mind, Gary has come up with the Gary Saitowitz Grant program with the gracious gesture of reaching out to the poor students of the country so that they can pursue advanced studies and shine out from the rest without worrying about high education fees.

Gary Saitowitz already knows that shelling out expensive college fees for advanced studies is rather challenging, impossible to be precise, for the students coming from middle-class or average income families in America. In truth, the candidates from poor financial backgrounds are coerced to take high-interest education loans from banks compared to their rich counterparts hailing from prosperous families for funding their advanced education fees. That is why the Gary Saitowitz grant was developed, which is a talent-oriented and merit-based reward for those students, who have the intellect but not the money.

The financial aid is beneficial, as the poor students are not required or expected to pay back the money like when they take a loan from any bank in the country. It is simply a one-time financial assistance or prize money for the most talented and deserving candidate who writes the best essay with a limit of 700-850 words on the subject, "Top Entrepreneurial Qualities that Would Ensure Business Success in 2021?"

**Gary Saitowitz** is a talented and successful entrepreneur who is sentient that education is definitely the most significant and essential aspect when it comes to building an accomplished career. Then, the higher costs entailed in chasing advanced studies in the US appear to be skyrocketing each year and several US students are finding it tough or impossible to fund their education all by themselves and sans any financial grant or help.

Considering this aspect, he has created the Gary Saitowitz Grant with the noble goal of helping one deserving and most talented candidate in assuaging financial stress and overcome the monetary obligation of expensive education in the reputed colleges or universities in the US.

**Gary Saitowitz** initiated the grant program, as he knows that most of the students fail to pay for the expensive post-secondary college education themselves with no support from others. When it comes to those students, who have significant college savings plans can understand that they're not able to fulfill all the required conditions. Gary Saitowitz Grant is a talent-based, merit-oriented reward for the truly deserving student, who has intelligence but not the money to pursue higher education in the US.

The Gary Saitowitz grant is only for the deprived students in the US looking for higher education. Gary is aware that the tuition cost at a private college in the country offering four-year advanced courses will be very costly and as high as \$34,740, and the state universities will charge in-state candidates about \$9,970 and the candidates from outside states will require to pay as much as \$25,620. Yet again, while a candidate is chasing or dreaming of advanced college education, the yearly expenses will go up by around 2.4 percent at private institutions on an average and again by at approx 3.2 percent in one of the reputed public colleges in the country of America.

This is where Gary Saitowitz grant comes as financial aid to candidates, who cannot pay higher-education tuition fees. The grant has, therefore, offers the reward amount of \$1,000 to the most creative and talented student in the US.
