

LEADERSHIP FINGERPRINT

Internal Communications

Purpose Statement

Our communication team gives Poarch Tribal Members a platform for transparency, truth and engagement. A conduit of relevant and timely information, we build community trust and give voice to the unheard. Our openness and sincerity to new ideas and constructive feedback creates the conditions for meaningful debate, providing the mechanism to confront real issues with clarity and authenticity. Providing platforms that leverage modern technology, we liberate quiet voices that contribute deep wisdom and better thinking to make better decisions.

We collect, organize, and objectively distill and communicate the essence, converting data to insight, information to action, and complexity to simplicity to help our constituents feel 'in the know' to cut through the noise. Unafraid to enter uncharted waters, we work cohesively and tenaciously to finish challenging projects.

As we connect Members, leaders and employees of the Tribe to truth and wisdom, we strengthen community ties and help Members feel a greater sense of ownership in the Tribe's future.
