

# Martin Polanco Grant

**Martin Polanco** is a well-known psychiatrist specializing on Psychedelic Medicine. His endless passion and dedication to the field of psychiatry simply cannot be undermined. **Martin Polanco** has been striving relentlessly to help those who find it difficult to cope up with the strains and stress of life. He provides personalized and empathetic psychiatric solutions to the people braving through anxious and stressful times. He has instituted the **Martin Polanco Grant** so that young aspiring psychiatrists are able to pursue their dreams and provide counseling and psychotherapy services to help patients deal with major speed bumps that come on their way.

## Martin Polanco Grant

**Martin Polanco** wishes to inspire young minds with this grant of \$1,000 to the most deserving student whose focus will be to innovate and go way beyond all boundaries to make life much easier for the people suffering from depression, anxiety, PTSD or post-traumatic stress disorder and other mental health problems. The **Martin Polanco** Grant is a one-time gift-money for the most talented and bright student pursuing his or her higher studies but going through financial problems. If a meritorious student is unable to pursue his or her higher studies in medicine, especially in the research studies of psychedelic medicine, **Martin Polanco** is offering the **Martin Polanco** Grant. Besides being an achiever and brilliant academically, he or she needs to come up with an essay related to the following topic:

**“The challenges of Psychedelic Medicine Research & Reasons to Advocate Psychedelic Drugs as a Therapy.”**

**Martin Polanco** firmly believes that psychedelic medicine enhances emotional empathy, boosts feelings of intimacy and closeness, and promotes contemplativeness. **Martin Polanco** has been working to promote mental well-being of depressed people and hopes that he can be an inspiration for the current generation of young students pursuing higher studies in psychiatry, preferably specializing in psychedelic medicine.

**Martin Polanco** has realized that many sharp and bright students are compelled to give up their higher studies aspirations because of financial problems. He wants to help one student with a \$1,000 monetary assistance for this student to pay for his or her university tuition.
