### Essay Contest Background

Binge drinking on college campuses is an issue that greatly affects student performance, health, and addiction rates. In fact, nearly 1 in 3 students in a survey on past-month drinking conducted by the National Institute on Alcohol Abuse and Alcoholism admitted to binge drinking.

Binge drinking is a form of alcohol abuse, which can lead to alcohol addiction and dependence. When individuals continue to binge drink and do not seek help to stop drinking, they may experience withdrawal effects, become addicted, or face long-term health consequences.

For these reasons, it's important to bring awareness to the issue of binge drinking on college campuses and to shed light on ways to help prevent alcohol abuse, including binge drinking.

### Essay Submission Topic

Research binge drinking rates on college campuses. Calling on your own experience and looking at your campus for a guide, consider and discuss ways that could help prevent and raise awareness of the dangers and consequences of binge drinking.

Create a unique idea for an awareness and prevention campaign, and include the specific ways you would implement this campaign on your campus, given the opportunity. Ensure you are both creative and detail-oriented.

# Annual Black Entrepreneurship Grant

Eligibility Requirements: Ethnicity: African-American

Talent is evenly distributed, but opportunity is not. Although African-Americans comprise 13.4% of the US population, [just 1% of start-ups receiving venture funding have Black founders](#).

While entrepreneurship is one of the most impactful ways to move communities and the country forward, the pipeline of funded entrepreneurs does not reflect the diversity of our country.

And since the focus of funded start-ups tends to reflect the experience of their founders, lack of representation means blindspots in innovation. Critical, solvable problems go unaddressed. Concurrently, funding often flows in favor of ideas for businesses in saturated markets with less potential for impact and scale.

Solving this problem will take deep dedication across the start-up, tech, and venture capital world.

As one small part of this, the Annual Black Entrepreneurship Grant will be awarded each year to a Black undergraduate or graduate school entrepreneur who is currently building or who aspires to build a new business.

Current or aspiring Black entrepreneurs across any field or business stage will be considered.

Winners will be selected on the merit of their business idea, and on the impact that additional support would have for them.

## Harvey Fellows Program

The Harvey Fellows Program provides scholarships to Christian students who are pursuing graduate studies at premier universities in fields considered to be underrepresented by Christians and who possess a unique vision to impact society through their vocations.

Initiated by the Mustard Seed Foundation (MSF) in 1992, the Harvey Fellows Program seeks to mark, equip and encourage individuals to actively integrate their faith and vocation as leaders in strategic occupations. We understand God to be creator and sustainer, not only of human beings, but of society's disciplines and structures which make up our world. We believe God uses individuals to redeem these structures. We therefore desire to empower students who evidence the passion and ability to lead others as they participate in God's work in the world. Through the program, the Foundation seeks to identify, prepare, and celebrate this generation's Daniels, Esthers, Josephs and Lydias — people of God willing and able to assume positions of leadership and influence for the cause of Christ in fields such as media, government, scientific research, industry, the arts, and higher education.

### Mission Statement

1. To identify and mark Christian graduate students who possess exceptional leadership and academic abilities, and validate these abilities as gifts from God, worthy of cultivation.
2. To equip them with financial resources necessary to undertake advanced study at premier graduate institutions in preparation for vocations that are culturally influential, and where there is little Christian presence.
3. To encourage Harvey Fellows to lead integrated lives, addressing important societal issues from within the framework of a Christ-centered worldview, by offering a forum for the exchange of ideas on the integration of faith, learning, and vocation, and encouraging the development of a network of talented Christians who are leaders in numerous occupational arenas.

Applicants

## November 2020 Scholarship List One

To be awarded a Harvey Fellowship, applicants must be selected from among other qualified applicants through a competitive application process. Less than 10% of those who apply are selected. Applicants must complete and submit an online application as well as four recommendation letters no later than November 1.

Please carefully review the [Qualifications](#), [Selection Criteria](#), [Stipends](#), and [Expectations](#), and [Application Process](#) sections below to determine eligibility prior to starting an [Online Application](#) between **August 1 and November 1**.

**A Frequently Asked Questions (FAQ) section provides additional information commonly sought by applicants.**

### Qualifications

The following are requirements to qualify for a Harvey Fellowship:

#### Christian Faith

All persons receiving support from the Mustard Seed Foundation must demonstrate personal faith in Jesus Christ and desire to serve and witness in his name. The [Lausanne Covenant](#) best articulates the theological vision of the Mustard Seed Foundation. All applicants must either affirm the Lausanne Covenant as an expression of their faith and theological understanding; OR submit a statement in their application articulating how their theological understanding differs from the Covenant. In addition, the Foundation expects to see a strong correlation between a successful applicant and involvement in his/her local church.

#### Graduate Study

An individual must be enrolled in or have applied to a full-time graduate program. The Harvey Fellowship is not awarded to individuals pursuing undergraduate degrees, post-doctorate or non-degree programs, or part-time studies.

#### Premier Institutions

An individual must be attending or applying to a premier university — typically those with an internationally recognized reputation as a “top five” program in the specific discipline, or studying with an advisor (and/or team) who is an internationally recognized expert in their field — which will likely position the individual for a career in top companies, institutions and organizations worldwide.

#### Strategic Fields

An individual must be able to demonstrate that their intended vocational field has a significant impact on society, and yet appears to be underrepresented by Christians. We understand that

## November 2020 Scholarship List One

these fields may vary in different countries or contexts as applicants come from and are planning to work in different countries around the world. Therefore the applicant is responsible to make a strong case for the strategic nature and underrepresentation of Christians in the field or context in their application.

The most successful applicants tend to be preparing for careers in the following fields:

- Economics, business and finance in public and private sectors
- International diplomacy, security, and business
- Journalism and media
- Film production and visual and performing arts
- Public policy and federal, state, and major city government
- Applied and theoretical sciences
- Research, teaching, and administration at premier secular colleges and universities

Vocations we do not consider a priority for this fellowship include: work within a church or religious organization, civil service, elementary and secondary education, Christian education, homemaking, farming, not-for-profit relief and economic development, military service, private practice law or medicine, clinical psychology or counseling, social work, professional sports, and other fields that traditionally have attracted a higher percentage of Christians. While we value these disciplines and those who work in them, the purpose of this fellowship is to encourage scholarship and vocational pursuits in areas of significant societal influence in which a Christian presence is perceived to be minimal.

### **Selection Criteria**

Criteria for selecting individuals for the Harvey Fellowship includes the applicant's:

- Description of his/her Christian faith, and evidence of its strength and maturity
- Demonstrated ongoing commitment and accountability to the local church
- Articulation of the strategic nature of his/her vocational arena as a mission field and as a position from which to influence society
- Argument for the lack of a distinctive Christian voice in that field
- Demonstrated expertise within the discipline/field
- Demonstrated passion and ability to lead others

## November 2020 Scholarship List One

- Potential to impact people and systemic structures within the field through his/her vocational vision and commitment
- Ability to be successful in the chosen field of study, profession and cultural context
- Outstanding academic history

### Stipends

Each individual selected for the Harvey Fellowship is awarded an initial stipend of \$16,000. Fellows are free to use their stipends for legitimate educational expenses which further their vocational goals including tuition, living expenses, research tools or travel, studio space, professional conferences, and interview travel. The number of Fellowships awarded each year (both new and renewal) varies according to available funds of the Mustard Seed Foundation.

Stipends may be renewed for up to two additional years. Funding may be provided for a total of two years for most master's programs and a total of three years for law and doctoral programs. Stipend payments beyond the first year are contingent upon the Fellow's good academic standing, reaffirmation of the statement of faith and vocational goal as articulated in the student's application, timely attendance at a Summer Institute, the approval of Mustard Seed Foundation, and funds available to the Foundation.

### Expectations

Expectations of individuals chosen to be Harvey Fellows include the following:

#### Summer Institute

A significant component of the Harvey Fellows Program is a Summer Institute where Fellows meet to explore together the integration of faith, learning, and vocation. Typically held in Washington, DC in June, the Institute offers a unique opportunity to build networks for future interaction and encouragement. Participants learn from the examples of outstanding individuals who are committed to Jesus Christ and to a life of serving Him through strategic vocations.

New Fellows are expected to attend the Summer Institute as soon as one is offered (Institutes are held every-other year). Funding is contingent upon attendance at an Institute. The Mustard Seed Foundation pays program costs for the Institute. Fellows are responsible for transportation to and from the Institute and are required to stay for the duration. All Fellows are expected to participate in one Summer Institute. **The next Summer Institute will be June 20-24, 2021.**

## November 2020 Scholarship List One

### **Stewardship**

The Biblical concept of stewardship is central to the way mature Christians organize and prioritize their lives, by emphasizing the fact that all that we have — time, talents, and financial resources — have been given to us by God for his glory. In the selection of Fellows, the Foundation seeks to steward its resources to assist talented students to pursue the vocation to which God has called them. In return, the Foundation expects Fellows to continue to steward their lives to God's glory and the building of his kingdom. All Fellows, as available, are expected to participate in Harvey Fellows activities through the Mustard Seed Foundation. This includes, first and foremost, participating in the annual process of identifying and selecting new Harvey Fellows, but also includes other opportunities, such as sharing promotional materials with potential applicants.

### **Community and Service**

The Mustard Seed Foundation encourages the fostering of ongoing relationships among Fellows. This is achieved primarily through participation in the Summer Institute. In addition, the Fellows themselves organize events and programs to maintain these relationships. The hope of these relationships is to provide encouragement and support to live out one's faith and vocation, and to counter the isolation often experienced in graduate school and in one's profession. Senior Fellows (those having completed their degrees) are encouraged to serve as mentors to current Fellows. All Harvey Fellows are encouraged to actively foster and utilize the relational network, and to thereby learn from each other as they pursue the vocations to which God has called them. A select group of Fellows serve on the Harvey Fellows [Advisory Board](#). The Advisory Board facilitates regional gatherings of Fellows, maintains an active prayer network among the Fellows, and participates in the selection of new Fellows.

### **Application Process**

The application process includes completing and merging PDF files as well as facilitating the receipt of recommendation letters. The entire application must be completed by the November 1 deadline.

The application includes the following components:

- 1. Complete Contact Information**
- 2. Current Resume or CV**
- 3. Vocational Goal Statement**

### Academic Scholarship

Healthcare education is very rewarding, but it can also be rather costly. To help reduce these costs, there are scholarships currently available through HealthcareSystemCareersEDU.org. Our selection committee names a scholarship recipient on a bi-annual basis. Each winner will receive a \$500 scholarship award to put to the cost of healthcare related education.

#### [Application Form](#)

The team of professionals at HealthcareSystemCareersEDU.org places great value on healthcare education. In an effort to show just how much we believe in healthcare education, we now offer bi-annual scholarships to deserving students who are currently enrolled in a healthcare degree or certificate program. Our Healthcare Academic Scholarship is based on merit and is open to students who are currently enrolled at a campus. Students who are currently part of an

online program are also eligible to receive this scholarship. One condition remains for all applicants: the healthcare related program must be deemed a qualified program. The scholarship is also open to healthcare students at all different stages of the education process. Other requirements are that students must be currently enrolled and only one application per student will be allowed over the course of a 12-month period.

### Scholarship Application Deadlines

Students have up until May 1<sup>st</sup> to apply for the Fall Healthcare Academic Scholarship. The deadline for the Spring scholarship is November 1<sup>st</sup>. Students may not apply each season and will only be eligible to submit one application every 12 months.

### Official Rules

To be eligible for this scholarship, students must be enrolled in a healthcare related program. Applications must be submitted to [HealthcareSystemCareersEDU.org](http://HealthcareSystemCareersEDU.org). Candidates must follow the application instructions, which include the submission of an original essay on the assigned topic. Essays must be a minimum of 800 words in length, but must not exceed 1000 words. Correct formatting is expected on all essays that are submitted.

Applications that contain any type of false information will be disqualified immediately. Plagiarism found in the essay portion will also disqualify an applicant. Each essay is expected to be the original work of the applicant. Applicants will be asked to submit an essay that showcases their ability to fully answer the essay question and provide an ample amount of reasoning and insight.

### Selection Criteria

[HealthcareSystemCareersEDU.org](http://HealthcareSystemCareersEDU.org) has formed a scholarship selection committee that will review and consider each application. Each applicant will be measured by past academic performance, extracurricular activities, history of employment, and the individual essay. Here is a detailed look at the criteria that will be used to select the scholarship winner.

- **Completed Registration – Each part of this process must be followed accordingly**
- **Completed Essay – Essays should be formatted and well-written**
- **Work History and Activities – These should be legitimate experiences**
- **GPA (min 3.2 on a 4.0 scale) – The value of academic performance is emphasized**

### 2020 Essay Question

**What, has personally led you to the point of pursuing a degree or position in the healthcare field?** (Must be 800-1000 words)

### Equal Opportunity Consideration

[HealthcareSystemCareersEDU.org](http://HealthcareSystemCareersEDU.org) does not discriminate in any way based on age, race, sex, religion, disability status or sexual preference. Each individual scholarship applicant will be

## November 2020 Scholarship List One

considered equally. The separating factors among applicants depend on their academic merits, the strength of the essay, the overall application and the collective value of all criteria. The HealthcareSystemCareersEDU.org website has complete discretion in the process of selecting each scholarship winner.

### Announcing the Winner

Those who are chosen as the winners of the HealthcareSystemCareersEDU.org scholarship will be notified of that accomplishment within 30 days of the close of the application deadline. Winners will receive a notification via e-mail, as well as through the postal mail. The winning applicant will be asked to provide transcripts from his/her current college or university so that the scholarship committee can verify the GPA. If a winner fails to supply those necessary records, or provides a GPA that differs from what was on the application, then HealthcareSystemCareersEDU.org reserves the right to rescind the scholarship and award it to another qualified applicant.

The scholarship award will be paid directly to a qualifying health education program in the form of \$500.00 check. Winners can expect the award to be distributed within 3 months of receiving their winning notification letter.

*\*Please note that winners who have already made their tuition payments, in full, will have the scholarship funds sent directly to their permanent mailing address in the form of a check.*

Each season's winning scholarship recipient will have his/her name posted on the HealthcareSystemCareersEDU.org website.

# THE JAMES ALAN COX FOUNDATION FOR STUDENT PHOTOJOURNALISTS

Type of Awards:

## November 2020 Scholarship List One

- Five (5) Digital SLR Cameras will be awarded to five (5) high school students. **(High school applicants should only submit still photographs. The video awards are for college and graduate students only.)**
- Five (5) \$2,500 scholarships will be awarded to five (5) college or technical school students, payable to their school. **Four awards will be for video work while one will be for still photography.**
- One (1) \$2,500 scholarship will be awarded to one (1) graduate student, payable to their school, **for video work.**

*Focus of work and entries: **PHOTOJOURNALISM.** (Please see the [2019](#) or [previous years'](#) scholarship recipients to view examples of winning photographs and videos.) Scholarships will be awarded to those students whose work "tells a story". This is a fairly broad topic and may include a variety of subject matter and approaches (breaking news, sporting events, etc.) **Please keep in mind, for the still photography submissions, that we are NOT looking for "art" photography.***

**One suggestion, for subject matter, is the current crisis our world is facing: COVID-19.** All of our lives have been changed by the Coronavirus. Much like 9/11 changed the lives of your parents, this event will change your world forever. You can show, through images or video, how COVID-19 has affected life in your school, your home, and your community. (In terms of still photography, you may submit individual images that stand alone or a series of photos.) Topics might include empty shelves in stores and empty classrooms, or health care workers bravely battling this virus. Stories might also focus on how you and your family are dealing with this pandemic – playing games, making meals together, and, of course, navigating the new educational system of distance learning. We urge you to go out and record the history that is being made all around you (and be sure to identify your photos by location and date).

**Again, we are looking for photojournalism.** We are asking you to do a lot with this application – write an essay and send us your transcript and recommendations – so if you are submitting still photos, please don't ruin your chances of being considered by entering images of flowers, glamour shots or kittens – no matter how adorable they may be.

**Scholarship applications must be submitted between July 15, 2020 and Midnight, the Evening of November 15th, 2020.**

**Scholarships will be announced and awarded in early to mid-December.**

### INTERNSHIPS

The summer internship at a GEM Employer constitutes the initial phase of the GEM Fellowship program and acceptance of such employment validates the fellowship. Failure to accept the GEM summer internship offer cancels the fellowship. Internships generally run for 12 weeks, however, small variations are possible by mutual agreement between the GEM Fellow and Employer. Summer interns will receive a salary determined by the sponsoring employer. Each intern is also reimbursed for travel to and from the work site according to the GEM Employer's travel policy.

Each employer assigns an experienced engineer or scientist as a supervisor to each GEM Fellow. The role of the supervisor is to provide one-to-one guidance, support, and assistance throughout the assignment. At the end of the summer, the supervisor and the student each complete forms evaluating the effectiveness of the assignment and the quality of the student's work performance and may include recommendations regarding the student's next year of study or employment.

## November 2020 Scholarship List One

Employer-sponsored PhD Fellows are required to intern with the selecting Employer Member at least one summer prior to the commencement of GEM Funding.

Employer-sponsored MS Fellows are expected to intern every summer after their selection until completion of MS degree requirements.

The company determines the assignment and location of the summer internship. Every effort is made to match students whose research interests are compatible to the needs of the company.

Neither the student nor the company incurs an obligation beyond the student's completion of the master's or doctoral program.

### **General Scholarship Essay Advice**

Before you begin writing your essay, consider these few important points:

- Be Specific
- The best applicants understand what it means to be a leader and who have demonstrated leadership traits and qualities in their own lives. Do not just write that you have a desire to be a leader; share vivid examples of how you exemplify leadership. Avoid providing a list of accomplishments; rather, use specific examples to paint a detailed picture of you — the leader.
- Proofread Carefully  
Your essay should be in your own words and free from grammatical, spelling, and syntax errors. We are expecting a clean and polished final draft. Use the resources at your disposal to ensure your essay is error-free and ready for submission.
