

Online Theology Degree Programs

Theology is fundamental to our faith as Christians. Without it, we wouldn't have pastors, missionaries, youth ministers and more to help us relate to God and the world around us. We may know what we believe, but theology helps us understand why we believe it.

There are many students in Atmore who have a deep calling to pursue a degree in theology but are limited in their options because of work obligations, disability limitations, family, and finances. Because of this, my team at ChristianColleges.com<<https://www.christiancolleges.com/>> has published these two resources:

Guide to an Online Bachelor's in Theology - <https://www.christiancolleges.com/online-degrees/bachelors-in-theology/>

Guide to an Online Master's in Theology - <https://www.christiancolleges.com/online-degrees/masters-in-theology/>

Topics include:

- * Free online theology courses
- * Theology scholarships and professional resources
- * An overview of degrees, specializations and example courses
- * Job and salary employment outlooks
- * Licensing and accreditation information
- * Directory of theology programs from across the country.
