STUDYSOUP SCHOLARSHIP PROGRAM FOR WOMEN

We launched the StudySoup peer-to-peer learning marketplace in 2014. When we were in school, we found that success in the classroom can be a pretty ambiguous thing. Every class has hours of lectures and dozens of readings. Come midterm time, most students are overwhelmed and have no idea how they should study. Without fail, however, there are always a few top students in the class who know exactly what it takes to be successful. We decided to empower those top students to help their peers, and make money, by posting their best study materials to StudySoup.com.

At the end of the day, learning from your peers is the best way to learn, because after all, who understands your questions better than someone else in the class?

Scholarship Details

StudySoup works to support students as they find success through education. In addition, as part of that mission, we are proud to stand behind female students who continue to break down gender barriers and move into crucial leadership positions.
