College affordability is one of the many components of higher education enrollment that has been affected by the global pandemic. Students' college savings have been hit hard as a result of employment loss in the service and retail sectors, and many who would rely on the income earned over the summer find themselves struggling to make their college aspirations a reality.

We are dedicated to promoting higher education and academic success for students, and to help them make it through this difficult time, we've built a series of resources that offer guidance when it comes to college affordability. These guides offer scholarship information, student employment options, and other tuition assistance opportunities. We're hoping to support Atmore's students with the help of the community cornerstones they look to and trust in.

You can have a look at our guides here:
