I. EXECUTIVE SUMMARY

A. Public Inspection of Tribal Plan:

The active participation of the citizens in community affairs is solicited by the Tribe through the following methods:

1. The Poarch Creek Indians Newsletter is published monthly and is the primary vehicle through which the community receives written information on community activities and tribal programs. The notice for the public comment regarding the current Tribal plan was made available to the tribal community in the newsletter and is posted throughout the tribal complex. The grants are available for review and comment at any time within the Family Services Department. *(Please see the attached copy of the announcement.)*

2. Special community meetings are scheduled as needed throughout the year. The Tribal Chairman reports to the community, answers questions, and solicits opinions in all matters which may be of concern to them.

3. The Tribal Council is made up of the elected officials and meets twice a month unless special meetings are called. The Council conducts day-to-day business activities of the Tribe and works closely with all tribal programs. The Tribal Council reports to the General Council.

4. Various committees are functional within the Tribal infrastructure. The majority of these committees include members of the community, thereby giving those who are not tribal employees a voice in the day-to-day operations of the Tribe.

CERTIFICATION REGARDING DRUG-FREE WORKPLACE REQUIREMENTS

This certification is required by the regulations implementing the Drug-Free Workplace Act of 1988: 45 CFR Part 76, Subpart, F. Sections 76.630(c) and (d)(2) and 76.645 (a)(1) and (b) provide that a Federal agency may designate a central receipt point for STATE-WIDE AND STATE AGENCY-WIDE certifications, and for notification of criminal drug convictions. For the Department of Health and Human Services, the central point is: Division of Grants Management and Oversight, Office of Management and Acquisition, Department of Health and Human Services, Room 517-D, 200 Independence Avenue, SW Washington, DC 20201.

Certification Regarding Drug-Free Workplace Requirements (Instructions for Certification)

1. By signing and/or submitting this application or grant agreement, the grantee is providing the certification set out below.

2. The certification set out below is a material representation of fact upon which reliance is placed when the agency awards the grant. If it is later determined that the grantee knowingly rendered a false certification, or otherwise violates the requirements of the Drug-Free Workplace Act, the agency, in addition to any other remedies available to the Federal Government, may take action authorized under the Drug-Free Workplace Act.

3. For grantees other than individuals, Alternate I applies.

4. For grantees who are individuals, Alternate II applies.

5. Workplaces under grants, for grantees other than individuals, need to be identified on the certification. If known, they may be identified in the grant application. If the grantee does not identify the workplaces at the time of application, or upon award, if there is no application, the grantee must keep the identity of the workplace(s) on file in its office and make the information available for Federal inspection. Failure to identify all known workplaces constitutes a violation of the grantee’s drug-free workplace requirements.

6. Workplace identifications must include the actual address of buildings (or parts of buildings) or other sites where work under the grant takes place. Categorical descriptions may be used (e.g., all vehicles of a mass transit authority or State highway department while in operation, State employees in each local unemployment office, performers in concert halls or radio studios).

7. If the workplace identified to the agency changes during the performance of the grant, the grantee shall inform the agency of the change(s), if it previously identified the workplaces in question (see paragraph five).

8. Definitions of terms in the Nonprocurement Suspension and Debarment common rule and Drug-Free Workplace common rule apply to this certification. Grantees’ attention is called, in particular, to the following definitions from these rules:
**Controlled substance** means a controlled substance in Schedules I through V of the Controlled Substances Act (21 U.S.C. 812) and as further defined by regulation (21 CFR 1308.11 through 1308.15);

**Conviction** means a finding of guilt (including a plea of nolo contendere) or imposition of sentence, or both, by any judicial body charged with the responsibility to determine violations of the Federal or State criminal drug statutes;

**Criminal drug statute** means a Federal or non-Federal criminal statute involving the manufacture, distribution, dispensing, use, or possession of any controlled substance;

III. NARRATIVE

A. TRIBAL ADMINISTRATIVE STRUCTURE:

   • MISSION AND RESPONSIBILITIES:

   Responsibility for administering the proposed grant resides with the Poarch Band of Creek Indians’ Family Services Department. The Family Services Director will be responsible for the overall grant administration. Program activities will be overseen by the Family Services Director, who reports to the Tribal Member Services Division Director and then to the Chief of Staff for Poarch Band of Creek Indians.

   The Family Services Department operates under the provisions of federal statutes and Tribal Codes. The Family Services Department has a positive impact on the lives of the Tribal members. This department is a functional prototype of the Alabama Department of Health and Human Services, administering programs designed to improve the quality of life of Tribal members.

   The programs administered by the Family Services Department provide essential services, crisis intervention activities, and outreach services to tribal members. These programs include the Abuse Prevention Program, Adult Services Program, Child and Family Welfare Program, Community Services Program, and the Community Services Childcare Program. The Community Services Program includes grants from Low Income Home Energy Assistance Program (LIHEAP), Child Care and Development Block Grant (CCDBG), Community Services Block Grant (CSBG), and Tribal funded programs geared toward providing financial assistance for basic essential needs of low income families. In addition, this department is charged with the responsibility for the equitable administration of child welfare issues and law, the protection of Tribal member children, elders, and domestic violence victims through case management services or referrals to other state and county resources.

   The Poarch Band of Creek Indian Tribal Government has experienced tremendous success in obtaining and administering federal grants since receiving federal acknowledgement in 1984. As a new government, the Poarch Creek Indians relied on assistance from the numerous Federal agencies to supplement revenue, which is normally derived from tribal enterprises.

   The major source of federal grants has been the Bureau of Indian Affairs, Indian Health Service and the US Department of Housing and Urban Development. Other agencies which have made grant funds available to the Tribe include the US Department of Labor, Justice,
Agriculture and Health and Human Services.

Unlike many municipal governments who are recipients of federal grant funds, the monies received by the Tribe have been used for highly visible projects and the delivery of essential services to the tribal members. The most visible use of these funds include the construction of the Tribal Office Complex, which includes a Health Clinic, administration buildings, a multi-purposes building, a police department, two stations within our fire department. According to the Housing Department on, one hundred eighty (180) housing units are currently available on the reservation. We have (21) units completed in Escambia County, Florida, which is a part of the Tribe's mandated service area.

The Tribe has been successful in obtaining the grant funds because of the clear and present need for the grant monies. In addition to a very strong need, the Tribe has consistently administered its grant programs in strict compliance with the applicable laws and regulations governing the use and expenditure of grant proceeds. All grant programs are audited on an annual basis by an independent auditing firm with copies of the audit report submitted to the Federal agency which approved the grant. From the audit report and on-site monitoring visits which are conducted by the Federal agency, a determination is made by the grantor agency concerning the effective and appropriate administration of the grant programs.

The use of grant funds are considered to be an interim method of financing the operations of the Tribal government until the Tribe achieves its goals of economic self-sufficiency.

- **OVERALL GOALS AND OBJECTIVES:**

As a federally recognized Tribe, the Poarch Band of Creek Indians are in a better position to bring about its commitment to develop a viable community with appropriate housing and improved health opportunities. The increased need to access available services on the reservation is due to a geographic relocation of Tribal members back into the vicinity; the availability of low income rental houses on reservation; the development of HUD homes built near the reservation; and the availability of transitional housing units near the reservation. The Tribe's commitment to provide services to its members is especially critical with its social, economic, and legal needs ever-changing.

The Poarch Creek Indians has successfully administered the Community Services Block Grant Program for approximately twenty-five (25) years. These funds are used to support the following objectives:

- To provide assistance with transportation, or vehicle needs yearly;
• To provide emergency food to families each year;
• To provide emergency housing assistance families each year.
• To provide financial assistance to obtain, secure, or retain a job for individuals each year.

B. USE OF ADMINISTRATIVE FUNDS:

The Poarch Band of Creek Indians Family Services Department will apply all funds received through the Community Services Block Grant to client services. No funds will be utilized for administration of this grant.

C. PROGRAM IMPLEMENTATION:

• Service Delivery System:

The Family Services Department Community Services program provides daily appointments for clients presenting need for assistance. The client completes an application and provides documentation verifying their identified need and their household income. The Financial Services Coordinator conducts interviews with clients to determine their need and to obtain documentation verifying their reported need. The Financial Services Coordinator recommends payments to vendors, or recommends the use of food and gas vouchers or a hotel voucher to meet the identified crisis need of the client. The Family Services Director reviews the case file and either approves or denies the application. The client is notified within five (5) business days of the decision on their case. Generally, the client will know the resolution of their case within twenty-four (24) hours or less. If the case is approved for assistance, a funds disbursement form is turned into the Family Services Clerk for completion of a purchase order to release funds to the identified vendor. The Purchase Order must contain the authorizing signature of the Family Services Director, the Federal Accounting Controller, and the Tribal Member Services Division Director before funds are released to the vendor. The Family Services Department maintains open purchase orders, approved by the Family Services Director, the Federal Accounting Controller, and the Tribal Member Services Division Director to provide gas, food, or hotel stay if approved and necessary to meet the crisis need of the client.

• Linkage:

The Family Services Department houses the Community Services program, the Community Services Childcare program, the Abuse Prevention program, the Adult Services program, and the Child and Family Welfare program. If any unmet needs are identified during
the client interview in any of these programs, the client is referred internally to the appropriate program for services. The internal services within the Family Services Department includes: crisis assessments; parent training; domestic, family, and dating violence prevention and intervention services; sexual assault prevention and intervention services; ICWA services, child and family welfare services; adult welfare services; intensive crisis counseling services; intensive in-home intervention services; respite care services; case management services; and newly developing substance abuse prevention and intervention services. The Tribal complex also houses the Poarch Band of Creek Indians Health Department, Education Department, the Drug Court program, the Housing Department, the Recreation Department, the S.A.I.L. Center, Tribal Member Benefits Department, the WIA program. If unmet needs are identified during an interview with a client, and if the client is in need of any of the services offered through any other Tribal department, a referral is given to the client and to the Department to ensure the client’s needs are addressed. Clients whose needs extend beyond the services available within the Tribe are referred to county and state services provided within the Tribe’s six-county service area.

- **Coordination with other public and private resources:**

  The Family Services Department serves on the board of the local Community Action Agency for the six (6) Alabama counties surrounding the reservation. This provides the Department with an opportunity to coordinate with other providers to ensure all Tribal members living within the six (6) Alabama counties surrounding the reservation are referred to the Tribe for available services. This also enables the Tribe and the Counties to ensure fraud is not occurring with tribal member clients receiving duplication in services.

- **Innovative Community and Neighborhood-Based Initiative:**

  The Family Services Department provides referrals both internally and externally to programs designed to improve the lives of our clients. These programs include individualized parent training services; prevention programs such as NA, AA, Al-Anon; Health and Wellness programs; and to tribal programs designed to provide education and training about historical Creek culture. Funds from the Community Services Block Grant are not specifically used to provide these training events as the events are funded by Tribal government funds or are available within the community and are offered at little to no cost to the clients. Case plans with individual clients may include referrals to these services listed above and case management would follow-up to ensure compliance by the client.
