The Tribal Court administrative office front window will remain open at this time however, we would prefer limited visitors. Therefore, please do not come inside the building unless you have important business with the Court. Most in-person court proceedings have been suspended until further notice including Drug Court. There are, however, a few cases that will have to be heard and these cases will be handled at the discretion of the Judge and those litigants will receive a notice of appearance if necessary. Drug Court and Probation Participants will be given direction from the Case Manager/Probation Officer on required responsibilities. Also, all appointments with the Forensic Counselor are canceled. If you have an emergency or need immediate attention, please call the office. Thank you for your patience and understanding during this time.
