Use of this model plan is optional. However, the information requested is required in order to receive a Low Income Home Energy Assistance Program (LIHEAP) grant in years in which the grantee is not permitted to file an abbreviated plan. Public reporting burden for this collection of information is estimated to average 1 hour per response, including the time for reviewing instructions, gathering and maintaining the data needed, and reviewing the collection of information. Assurances

The POARCH BAND OF CREEK INDIANS agrees to:

(1) use the funds available under this title to—

(A) conduct outreach activities and provide assistance to low income households in meeting their home energy costs, particularly those with the lowest incomes that pay a high proportion of household income for home energy, consistent with paragraph (5);

(B) intervene in energy crisis situations;

(C) provide low-cost residential weatherization and other cost-effective energy-related home repair; and

(D) plan, develop, and administer the State's program under this title including leveraging programs,

and the State agrees not to use such funds for any purposes other than those specified in this title;

(2) make payments under this title only with respect to—

(A) households in which one or more individuals are receiving—

(i) assistance under the State program funded under part A of title IV of the Social Security Act;

(ii) supplemental security income payments under title XVI of the Social Security Act;

(iii) food stamps under the Food Stamp Act of 1977; or

(iv) payments under section 415, 521, 541, or 542 of title 38, United States Code, or under section 306 of the Veterans' and Survivors' Pension Improvement Act of 1978; or

(B) households with incomes which do not exceed the greater of—

(i) an amount equal to 150 percent of the poverty level for such State; or

(ii) an amount equal to 60 percent of the State median income;

except that a State may not exclude a household from eligibility in a fiscal year solely on the basis of household income if such income is less than 110 percent of the poverty level for such State, but the State may give priority to those households with the highest home energy costs or needs in relation to household income.
(3) conduct outreach activities designed to assure that eligible households, especially households with elderly individuals or disabled individuals, or both, and households with high home energy burdens, are made aware of the assistance available under this title, and any similar energy-related assistance available under subtitle B of title VI (relating to community services block grant program) or under any other provision of law which carries out programs which were administered under the Economic Opportunity Act of 1964 before the date of the enactment of this Act;

(4) coordinate its activities under this title with similar and related programs administered by the Federal Government and such State, particularly low-income energy-related programs under subtitle B of title VI (relating to community services block grant program), under the supplemental security income program, under part A of title IV of the Social Security Act, under title XX of the Social Security Act, under the low-income weatherization assistance program under title IV of the Energy Conservation and Production Act, or under any other provision of law which carries out programs which were administered under the Economic Opportunity Act of 1964 before the date of the enactment of this Act;

(5) provide, in a timely manner, that the highest level of assistance will be furnished to those households which have the lowest incomes and the highest energy costs or needs in relation to income, taking into account family size, except that the State may not differentiate in implementing this section between the households described in clauses 2(A) and 2(B) of this subsection;

(6) to the extent it is necessary to designate local administrative agencies in order to carry out the purposes of this title, to give special consideration, in the designation of such agencies, to any local public or private nonprofit agency which was receiving Federal funds under any low-income energy assistance program or weatherization program under the Economic Opportunity Act of 1964 or any other provision of law on the day before the date of the enactment of this Act, except that—

(A) the State shall, before giving such special consideration, determine that the agency involved meets program and fiscal requirements established by the State; and

(B) if there is no such agency because of any change in the assistance furnished to programs for economically disadvantaged persons, then the State shall give special consideration in the designation of local administrative agencies to any successor agency which is operated in substantially the same manner as the predecessor agency which did receive funds for the fiscal year preceding the fiscal year for which the determination is made;

(7) if the State chooses to pay home energy suppliers directly, establish procedures to --

(A) notify each participating household of the amount of assistance paid on its behalf;

(B) assure that the home energy supplier will charge the eligible household, in the normal billing process, the difference between the actual cost of the home energy and the amount of the payment made by the State under this title;
(C) assure that the home energy supplier will provide assurances that any agreement entered into with a home energy supplier under this paragraph will contain provisions to assure that no household receiving assistance under this title will be treated adversely because of such assistance under applicable provisions of State law or public regulatory requirements; and

(D) ensure that the provision of vendor payments remains at the option of the State in consultation with local grantees and may be contingent on unregulated vendors taking appropriate measures to alleviate the energy burdens of eligible households, including providing for agreements between suppliers and individuals eligible for benefits under this Act that seek to reduce home energy costs, minimize the risks of home energy crisis, and encourage regular payments by individuals receiving financial assistance for home energy costs;

(8) provide assurances that,

(A) the State will not exclude households described in clause (2)(B) of this subsection from receiving home energy assistance benefits under clause (2), and

(B) the State will treat owners and renters equitably under the program assisted under this title;

(9) provide that--

(A) the State may use for planning and administering the use of funds under this title an amount not to exceed 10 percent of the funds payable to such State under this title for a fiscal year; and

(B) the State will pay from non-Federal sources the remaining costs of planning and administering the program assisted under this title and will not use Federal funds for such remaining cost (except for the costs of the activities described in paragraph (16));

(10) provide that such fiscal control and fund accounting procedures will be established as may be necessary to assure the proper disbursal of and accounting for Federal funds paid to the State under this title, including procedures for monitoring the assistance provided under this title, and provide that the State will comply with the provisions of chapter 75 of title 31, United States Code (commonly known as the "Single Audit Act");

(11) permit and cooperate with Federal investigations undertaken in accordance with section 2608;

(12) provide for timely and meaningful public participation in the development of the plan described in subsection (c);

(13) provide an opportunity for a fair administrative hearing to individuals whose claims for assistance under the plan described in subsection (c) are denied or are not acted upon with reasonable promptness; and
(14) cooperate with the Secretary with respect to data collecting and reporting under section 2610.

(15) * beginning in fiscal year 1992, provide, in addition to such services as may be offered by State Departments of Public Welfare at the local level, outreach and intake functions for crisis situations and heating and cooling assistance that is administered by additional State and local governmental entities or community-based organizations (such as community action agencies, area agencies on aging and not-for-profit neighborhood-based organizations), and in States where such organizations do not administer functions as of September 30, 1991, preference in awarding grants or contracts for intake services shall be provided to those agencies that administer the low-income weatherization or energy crisis intervention programs.

* This assurance is applicable only to States, and to territories whose annual regular LIHEAP allotments exceed $200,000. Neither territories with annual allotments of $200,000 or less nor Indian tribes/tribal organizations are subject to Assurance 15.

(16) use up to 5 percent of such funds, at its option, to provide services that encourage and enable households to reduce their home energy needs and thereby the need for energy assistance, including needs assessments, counseling, and assistance with energy vendors, and report to the Secretary concerning the impact of such activities on the number of households served, the level of direct benefits provided to those households, and the number of households that remain unserved.
Certification to the Assurances: As Chief Executive Officer, I agree to comply with the sixteen assurances contained in Title XXVI of the Omnibus Budget Reconciliation Act of 1981, as amended.* By signing these assurances, I also agree to abide by the standard assurances on lobbying, debarment and suspension, and a drug-free workplace.

Signature of the Tribal or Board Chairperson or Chief Executive Officer of the State or Territory.**

* Indian tribes/tribal organizations, and territories with annual regular LIHEAP allotments of $200,000 or less, are not subject to assurance 15, and thus must only certify to 15 assurances.

** If a person other than the Chief Executive Officer of the State or territory, or Tribal Chairperson or Board Chairperson of a tribal organization, is signing the certification to the assurances, a letter must be submitted delegating such authority. (PLEASE ATTACH DELEGATION of AUTHORITY.) The delegation must include authority to sign the assurances, not just to administer the program.

Please list below.
Please check the outreach activities that you conduct that are designed to assure that eligible households are made aware of all LIHEAP assistance available:

- [x] provide intake service through home visits or by telephone for the physically infirm (i.e. elderly or disabled).
- [x] place posters/flyers in local and county social service offices, offices of aging, Social Security offices, VA, etc.
- [x] publish articles in local newspapers or broadcast media announcements.
- [ ] include inserts in energy vendor billings to inform individuals of the availability of all types of LIHEAP assistance.
- [x] make mass mailing to past recipients of LIHEAP.
- [x] inform low income applicants of the availability of all types of LIHEAP assistance at application intake for other low-income programs.
- [ ] execute interagency agreements with other low-income program offices to perform outreach to target groups.
- [x] other (Please specify): Mass mailing to past LIHEAP recipients is conducted through a monthly newsletter, Poarch Creek News, that is sent to all Tribal Member households. These articles are also available on the Poarch Band of Creek Indians official website and social media sites.
Please describe how you will assure that LIHEAP is coordinated with similar and related programs. The description provided applies to all components unless specifically noted.

The Family Services Department Community Services Program provides intake services for all “financial assistance” applications. Through this intake process, eligibility is determined for LIHEAP assistance and other services are coordinated with similar tribal programs.

The PBCI Family Services Department continues to coordinate with state agencies to avoid duplication of services. It is the standard practice for local governmental or community service offices to inquire if an applicant is a tribal member; and if so, to refer them back to the Tribe’s Family Services Department for services. The Family Services Department meets with community agencies throughout our service area in an effort to ensure no duplication of services is provided.

The statute requires that there be no difference in the treatment of households eligible because of their income and those eligible because they receive benefits under TANF, Food Stamps, SSI, or certain means-tested veterans programs ("categorically eligible"). How do you ensure there is no difference when determining eligibility and benefit amounts? This applies to all components unless specifically noted below.

LIHEAP articles or notices are posted on the Poarch Creek website and other media outlets and are published in the Poarch Creek News for all Tribal Members living within the Tribe’s six-county service area. The LIHEAP program notice to potential clients establishes an appointment schedule which identifies priority interview days for the elderly, TANF, Food Stamps, SSI and the means-tested veteran program. Eligibility is automatic for these types of households. Benefit amounts are based on the energy needs of the household up to the established threshold amount and as calculated by the Matrix chart. This provides equal opportunity and notice for participation in the Tribal LIHEAP Program.

Clients are awarded based upon eligibility, point system, and LIHEAP Payment Matrix. Payments are made directly to vendors/service providers for the amount that clients qualify for. Payments are made to provider for qualifying amount. This may include current billing as well as any pre-paid accounts. LIHEAP funds may not be used for reconnection fees if services have been discontinued.

2605(b)(7)(B) & (C) ➔ How do you make sure the home energy supplier performs what is required in this assurance? If vendor agreements are used, they may be attached. Indicate each component for which this description applies.

There are no formal vendor agreements. Local vendors are familiar with our services and accept the award letter from the Family Services Department and the Tribal Accounting purchase order system. When an applicant is approved for any type of LIHEAP service, a purchase order is completed and sent to the Tribal Accounting Department. A check is made payable to the vendor and is mailed to them or taken to them by a staff person within the Tribal Accounting Department. An invoice is necessary to verify services rendered or delivery of services before payment is made from LIHEAP funds.

HEATING ASSISTANCE

x Yes _____ No

If Yes, describe alternate process for outreach and intake:

The outreach process is the same. The Family Services Department conducts the intake process for the Heating Assistance (WLIHEAP) on selected dates and according to the identified priority schedule for seniors, disabled persons, TANF and Food Stamp recipients, and children under five. The outreach process is the same. The Family Services Department provides the opportunity for clients that received WLIHEAP, to verify that information remains the same as it was during the initial interview for Heating Assistance. If the information remains the same, the clients will not have to have another interview and their applications will then be processed for Cooling Assistance (SLIHEAP). If the client did not receive Heating Assistance, an appointment will be made for them to complete the interview process as well as for those clients who had a change in information since they received Heating Assistance.
CRISIS ASSISTANCE

_x__Yes  ___No

If Yes, describe alternate process for outreach and intake:

The outreach process is the same. Crisis Assistance is available on an as-needed basis throughout the year. * One of the requirements included in the 1994 reauthorization of the statute is that state grantees must include in their annual application for funds a report on the number and income levels of households applying for and receiving LIHEAP assistance, and on the number of recipient households that have members who are elderly, disabled, or young children.

**All Tribes and those territories with allotments of less than $200,000** need only submit data on the number of households served by each component (heating, cooling, weatherization and crisis). The approval for the collection of information contained in the **LIHEAP Household Report** is covered by OMB approval number 0970-0060.

* Though not a part of this application, the report on funds to be carried over or available for reallocation as required by section 2607(a) for the preceding year must be submitted by August 1 of each year. A grant award for the current fiscal year may not be made until the carryover/reallotment report is received. The approval for the collection of information contained in the **LIHEAP Carryover and Reallotment Report** is covered by OMB approval number 0970-0106.
