

Monroe Healthcare Training Academy, LLC

Start your career in Healthcare

Our certificate programs help you acquire knowledge, skills, and experience in a planned and timely manner. Each program includes classroom training that focuses on the technical and professional requirements of your specific area of study, as well as clinical training that provides an opportunity for hands-on learning.

Our programs are developed based on employer expectations and prepare students to sit for the national examination. If you are looking for a career with unlimited learning opportunities and growth potential, health care may be right for you.

These are the programs we currently offer:

Medical Assistant

Patient Care Technician

Phlebotomy

Certified Medical Assistant

This accredited program prepares students with the administrative, clinical, and professional skills required to work in a physician's office or medical clinic. You will learn how to schedule appointments, order supplies, take vital signs, draw blood, give injections, perform EKG's, bill insurance companies and use electronic health records (EHR). The length of our program is 6 weeks. Tuition: \$ 2200.00 (Payment plans available)

Certified Patient Care Technician

Patient Care Techs are the foundation of patient care. Whether in a hospital setting, outpatient surgery centers, or dialysis centers a Certified Patient Care Tech (PCT), they are on the front lines, caring for patients' daily needs. You will learn how to perform bedside care, under the supervision of a Registered Nurse or physician, perform EKG's, and draw blood. The length of our program is 4 weeks. Tuition: \$ 1000.00 (Payment plans available)

Certified Phlebotomist

Phlebotomists are primarily responsible and accountable for the collection of blood specimens from patients for the purpose of laboratory analysis. Our program provides training in correct methods of drawing blood samples by venipuncture, skin puncture (capillary), or arterial collection for medical tests and donations. Classroom training is followed by clinical, which allow students to utilize their skills and gain hands on experience in a laboratory setting. This is an accelerated training program designed to be completed in one weekend. Tuition: \$ 550.00

Successful completion of the class qualifies the student to take the national certification exam by our accrediting agency, MEDCA. Exams are given at our facility on the last day of class. The results are available upon completion of the exam. Tuition for each program includes all training material, AHA BLS certification
