### **Pass the Stethoscope**

Native Music Productions, Association of American Indian Physicians, and We Are Healers presents you with #PassTheStethoscope message with the goal to inspire and encourage Native American youth (and all Indigenous community members) to pursue medicine as a career. There is a lack of American Indian Physicians (0.3%) and we know that Indigenous representation in the health fields is critical and important on so many levels. Thanks to the current Native physicians, including AAIP members, and future physician for being a part of this important cultural message for us all. Please share! #weneedmore #AmericanIndiandoctors #TheFuture
