AUBURN
UNIVERSITY OUTREACH

Auburn Youth Programs

*A LEADER IN HIGHER EDUCATION,
A SUMMER LEARNING EXPERIENCE!*

The academic enrichment programs held at Auburn University are collaborative efforts between the Office of Professional and Continuing Education (OPCE) and academic departments on campus. In general, these partnerships rely on the academic unit to provide the course of instruction for the participants throughout the week, while OPCE staff

handles the marketing, registration, logistical planning, and financial administration of the programs, as well as providing supervision and recreational opportunities for the participants when they are not in their classes.

Currently, the programs offered vary across the many disciplines of the university, such as Architecture, Aviation, Building Science, Industrial Design, Engineering, Social Sciences, Computer Science, Food Science, Forestry, Leadership (a partnership with the Truman Pierce Institute), Sports Science and Veterinary Medicine. Each camp program provides an enriched learning experience in their respective fields, which is beneficial to the program participants in several ways. They receive exposure to the programs

offered by Auburn University and they get an opportunity to learn more about a field they may be interested in pursuing as a career.
