

CHILD CARE PROGRAM

The Child Care Program provides limited financial assistance to help parents cover the cost of child care. The Child Care and Development Fund (CCDF) provides limited financial assistance for child care payments for eligible households.

Eligible households include those with children who are members of federally-recognized tribes and who live within PCI-s designated service area. These households must also meet the financial guidelines for this program and all adults nineteen (19) and older must be employed at least part-time (20 hours per week) or enrolled and attending college at least part-time (20 hours per week).

PCI Tribal Member children and PCI First Generation Indian Descendant children whose household income is greater than guidelines for CCDF will be eligible to receive limited financial assistance through the PCI Tribal Child Care Program.

Other services provided are for limited jurisdiction child enforcement petitions in Tribal Court to establish paternity, child support payments or modification of previous child support orders. Court ordered custody home studies are also provided by social services staff.
