

# Strengthening Native American Communities Through Mentoring

“Our ancestors had the spiritual understanding that it is sacred work to evoke the gifts in our children; that each child is irreplaceable and has meaning and purpose to and for the community. They taught us that interdependence is part of the natural system of life and that each person is precious.”

The National Native American Mentoring Program is a site based program and will be taking place through the PCI Boys and Girls Club. This program allows matches to participate in fun and engaging activities in a supervised and safe environment. Additionally, group activities are planned on a regular basis. Matches meet for an average of one hour a week for one year or longer if desired.

We are looking for mentors who want to make a difference in a child's life and help them to strive to reach their full potential. We are in need of male and female mentors.

If you are interested in making a positive impact on a child's life through mentoring please contact:
