

Exploreum Summer Youth Paid Internship Program

Want to be part of an amazing team of educators and explore science every day?

Check out the Exploreum Science Center's Youth Paid Internship Program.

This program is a great place for motivated teens to gain valuable pre-employment experience in a fun, educational setting. Interns will have the opportunity to work alongside Science Center staff, facilitating positive visitor experiences through an array of tasks and responsibilities as they learn about the world of informal education. Internships are available in education spaces, guest services and behind the scene roles where you will learn how the museum operates and gain valuable skills through your work. Successfully completing the internship can lead to an opportunity to extend the internship throughout the school year, and would also be a great item for resumes and college applications.

Eligibility: Applicants must be between the ages of 14-17 and currently enrolled in a High School or equivalent program.

All internship applicants are **required to submit a resume, cover letter and two teacher recommendations.** Email all application materials to twebb@exploreum.com by **May 2, 2022**. In the subject line, please include the position in which you are applying for.

Training is May 31, 2022 – June 3, 2022

Work begins June 6, 2022 and ends August 6, 2022

Click below to download internship PDFs for each position. In responding, please be sure to specify which position you are applying for in the subject line of your email.
