Cardiology  
Audiologist

Please note that these specialty clinics are outside providers who have chosen to come and see patients at the health clinic for the convenience of Tribal Members. Since they are outside providers, you will be responsible for all co-pays. Billing for services is done through the individual provider's office. If another physician refers you for further testing, you must let your primary physician at the health clinic know to determine if the health clinic will be responsible for the co-pay and deductibles.
